In 1798, she revised and corrected Sir John Flamsteed's Observations of the Fixed Stars for the Royal Society but was not, as a woman, eligible for election to that Society. For 15 points apiece:

1. Who was this self-taught German-born English astronomer, the first woman to discover a comet and ultimately the discoverer of eight comets?

ANSWER: CAROLYN HERSCHEL

2. In 1847, what self-taught American woman astronomer discovered her first comet and thereby became the first woman elected to the American Academy of Arts and Sciences, and the only one elected until 1918?

ANSWER: MARIA MITCHELL
